

Building and sustaining robust cybersecurity defenses takes the skills of a proven partner who understands your business just as well as the latest digital threats.

The risk of cyberattacks continue to rise. Enterprises - long the primary target of hackers - are no longer alone. SMB's have become the "low-hanging fruit", and are finding themselves in uncharted territories. Partnering with an experienced cybersecurity firm to help forge practical policies and mitigate risk has become essential.

On-demand access to a skilled team of award-winning cybersecurity defenders

Flat-rate managed cybersecurity solutions to simplify budgeting

With love from New York City - serving companies nationwide

A dedication to world-class customer service and satisfaction

Why Work with Manhattan Tech Support as Your Dedicated Cybersecurity Partner?

- **Fully Customized** cybersecurity protections that are built on federal guidelines like the **National Institute for Standards and Technology (NIST) Cybersecurity Framework** and others.
- An accomplished security team with **decades of experience** who will leverage the **latest security intelligence and techniques** to mitigate risk at your organization.
- **Fully-managed cybersecurity solutions** give you comprehensive, **flat-rate support** that keeps your budget predictable and business protected from current, and ever-evolving cyber threats.

Comprehensive Solutions That Address All Your Security Needs

Because even a single vulnerability can lead to intrusion, Manhattan Tech Support, backed by its specialized cybersecurity division Kaytuso, provides vigilant security that protects all your technology.

- 24/7 security monitoring detects and responds to incidents as early as possible, helping to mitigate the damage of cyberattack and keeping valuable data safe
- Mobile and cloud security that helps you embrace greater productivity, flexible work arrangements, and the latest mobile technologies with confidence
- Awareness training for employees ensures that your front-line cyber defense — your staff — know what not to do in the event of an attack
- We help companies safely meet a wide range of compliance requirements, including HIPAA, PCI-DSS, NYS-DFS, NY SHIELD, California's CCPA, and many others

All this for one flat monthly fee

There's an urgent need for rock-solid cybersecurity protections

76%

76% of all small and mid-sized businesses in the U.S. experienced a cyberattack in the last 12 months.

69%

69% of all businesses - enterprises and SMBs - reported losing sensitive information - an increase from 50% in 2016.

60%

60% of small businesses fold within 6 months of a cyberattack due to irreversible damages and financial losses.
