For over two decades, Manhattan Tech Support has been providing businesses in New York with reliable, monthly flat-fee technology solutions that supercharge their work, alleviate IT burdens, and increase profitability.

The highest-rated MSP in NYC

Over 20 years – an experienced leader in the technology services industry trusted by hundreds of businesses in NYC and beyond

Near-Perfect CSAT score highlights our dedication to world-class customer service and expertise

Best-in-class tools and processes to maximize your technology ROI

The Benefits of a Proven, Local IT Partner

Manhattan Tech Support gives businesses everything they need to approach complex technologies with the highest level of confidence.

· Fast and friendly service from **skilled technicians**
· **24/7 expert support** from NYC's most beloved help desk
· True flat-rate pricing **without hidden fees or surcharges**
· **No binding contracts** and **no long-term commitments**

The Elements of an Award-Winning Managed IT Services Provider (MSP)

We provide **fully customized technology solutions** that are tailored to meet the exact needs of your business here in New York City.

· Proactive maintenance and management to ensure **optimal network uptime and productivity**
· World-class technicians certified by industry heavyweights, including **Microsoft, Cisco, Apple, Google, CompTIA,** and others
· Well-established computing expertise to migrate data to the cloud, keep it safe, and **maximize the return on your investment**
· **Resilient disaster recovery and business continuity** solutions to safeguard you from a natural disaster, device failure, and data loss
· **Cutting-edge IT infrastructure strategy, planning and implementation** from a team of seasoned engineers and tech enthusiasts to keep your company agile, modern and at the forefront of technical advances
· **Streamlined vendor management** enabling a single point of contact for all technology-related services.

All this for one flat monthly fee

Why do businesses hire a managed IT services provider?

Manhattan Tech Support provides an entire team of expert technologists uniting wide-ranging skillsets and decades of advanced industry experience for a single, monthly fee

You can hire an entire team of world-class tech talent for less than the cost of a single IT Support Engineer in NYC, with limited hardware, software, systems and application experience and whose average base salary is $77k

Proactive support helps you increase productivity, strengthen your competitive advantage and effortlessly streamline and scale business operations
