

Robust, Secure Cloud Computing Solutions for Businesses

Best-in-class technology to enable productivity and efficiency – at scale

Cloud computing presents enormous opportunities, but it's a complex technology that must be implemented with expertise.

Manhattan Tech Support's cloud experts have a long track record of planning, deploying, and managing resilient cloud solutions that boost productivity and collaboration. Our managed services also streamline company workflows and minimize costs.

NYC's highest-rated managed IT services provider

Our partners include the world's most trusted cloud computing firms, like Microsoft, Amazon, and Google

We build bespoke cloud solutions that prioritize security, reliability, and compliance

A dependable leader in NYC's technology services industry for over 20 years

Cloud Solutions that Provide Real-World Business Benefit

- Facilitate **stronger teamwork and collaboration** among staff members working onsite and remotely by putting data in the cloud.
- Simplify IT budgeting** with **flat-rate service** that provides **predictable operating expenditure**, eliminating the high capital expenses associated with physical IT infrastructures.
- Keep your business safe with **cloud data storage** that protects you from disaster, hardware failure, or cyberattack.
- Our **compliance and cybersecurity division** ensures your data stays uncompromised as it moves between on-premise and cloud services.
- No hidden fees, or surprise surcharges** mean you can approach the cloud with complete peace of mind.

A Documented Track-Record for Cloud Success

We make sure our cloud services provide **lasting stability and return on investment**, no matter what goals you have for your cloud computing solution.

- Implement a **cloud collaboration platform** like Microsoft 365 to integrate **email, chat, teleconferencing, and screen sharing**, to boost efficiency.
- Scalable cloud infrastructure solutions** that allow you to add storage, compute, and other IT capacities to accommodate company expansion or busy periods with ease.
- Leverage **cloud backups and disaster recovery systems** from our dedicated cybersecurity division - **Kaytuso**, to protect against hardware failure or other data loss catastrophes.
- Cloud VoIP solutions** provide you with **low-cost, feature-rich business telephone service** that keeps both remote and onsite workers connected and productive.
- Cloud security expertise from **our dedicated cybersecurity division, Kaytuso** provides password management, security-as-a-service, and much more.

All this for one flat monthly fee
