

A lucrative new referral program that handsomely rewards you for sharing your love for our service.

The highest-rated MSP in NYC

Over 20 years – an experienced leader in the technology services industry trusted by hundreds of businesses in NYC and beyond

Near-Perfect CSAT score highlights our dedication to world-class customer service and expertise

Best-in-class tools and processes to maximize your technology ROI

Here's how it works...

\$50 for a referral that leads to a meeting.

\$2,000 if that conversation becomes a managed services contract.

A cool tech gift if they sign up for a non-managed solution.

If you love our world-class IT solutions, here's what you can do...

- **Spread the word.** The best thing you can do when you enjoy the service you're getting from a company is to tell your friends. We're introducing our referral program to help encourage our biggest fans to spread the word.
- **How it works.** It's simple. Tell your friends and fellow business owners about MTS and if they reach out to talk, we send you a little something in return. The further beyond a conversation it goes, the more you get.
- **Make intros and win.** We're doing this not just because we love new customers, but also because we want to reward our biggest fans and advocates. The more people you send our way, the more you get. **It pays to be popular.**

Need help showcasing the value? MTS has...

- **20+ years** of hands-on industry experience.
- **Real people** addressing your critical IT issues, 24/7.
- **Monthly management reports** that help measure system performance and health.
- **Proactive, continuous monitoring** of your entire IT infrastructure.
- **Flat-rate monthly fees** for unlimited support.

MTS makes it possible for businesses to:

- **Work more efficiently.** You get the support of a full IT team for far less with an MSP. You and your staff no longer have to worry about tech problems slowing you down (or having to solve them yourself). We take care of your issues when they arise, so you can focus more on your zone of genius.
- **Boost in-house knowledge.** MSPs bring a whole team's worth of knowledge and experience to your organization. They're experts in all facets of tech, from the cloud to cybersecurity and everything in between.
- **Scalable coverage.** When you work with MTS, you get a team that can provide the exact level of service your company needs at any given time. Your needs can start small, as a startup that requires some helpdesk work and grow as you become an enterprise that needs co-managed IT solutions.

Here's why your referrals mean so much to us...

91%

91% of B2B purchases are influenced by word of mouth.

70%
